1 Modelling primal cuts on pork carcasses for automated butchery

Wadie, I.H.C.; Khodabandehloo, K.; Intelligent Automation for Processing Non-Rigid Products, IEE Colloquium on , 1994

Pages:8/1 - 8/3

[Abstract] [PDF Full-Text (144 KB)] IEEE CNF

2 Applying knowledge-based expert system to meat grading

Chen, Y.-R.; AI Systems in Government Conference, 1989., Proceedings of the Annual , 27-31 March 1989
Pages:120 - 123

[Abstract] [PDF Full-Text (324 KB)] IEEE CNF

3 The automation of intuitive visual expertise: classification of beef carcasses using neural networks

Thodberg, H.H.;
Neural Networks for Industrial Applications (Digest No. 1997/014), IEE Colloquium
on , 12 Feb. 1997
Pages:4/1 - 4/2

[Abstract] [PDF Full-Text (156 KB)] IEEE CNF

4 **Ultrasound data acquisition system design for collecting high quality RF data from beef carcasses in the slaughterhouse environment**
Hein, I.A.; Novakofski, J.A.; O'Brien, W.D., Jr.;
Ultrasonics Symposium, 1992. Proceedings., IEEE 1992 , 20-23 Oct. 1992
Pages:1039 - 1044 vol.2

[Abstract] [PDF Full-Text (548 KB)] IEEE CNF

5 **Artificial intelligence application in carcass beef grading automation**
Chen, Y.R.; McDonald, T.P.;
Intelligent Robots and Systems '90. 'Towards a New Frontier of Applications',
Proceedings. IROS '90. IEEE International Workshop on , 3-6 July 1990
Pages:271 - 278 vol.1

[Abstract] [PDF Full-Text (524 KB)] IEEE CNF

6 **Image analysis and application systems in quality evaluation and prediction for meat and live meat animals**
Zhang, H.L.; Wilson, D.E.; Rouse, G.H.;
Image Processing, 1994. Proceedings. ICIP-94., IEEE International
Conference , Volume: 3 , 13-16 Nov. 1994
Pages:241 - 244 vol.3

[Abstract] [PDF Full-Text (276 KB)] IEEE CNF

7 **Characterization of beef muscle tissue using texture analysis of ultrasonic images**
Arul, P.R.; Amin, V.R.; Carlson, D.L.;
Biomedical Engineering Conference, 1993., Proceedings of the Twelfth
Southern , 2-4 April 1993
Pages:141 - 143

[Abstract] [PDF Full-Text (228 KB)] IEEE CNF

8 **Computer vision system applied to meat classification**

Nowak, A.; Florek, A.; Piascik, T.A.;
Image Processing and its Applications, 1992., International Conference on , 7-9
Apr 1992
Pages:579 - 582

[Abstract] [PDF Full-Text (248 KB)] IEEE CNF

9 IEE Colloquium on Neural Networks for Industrial Applications (Digest No.1997/014)

Neural Networks for Industrial Applications (Digest No. 1997/014), IEE Colloquium
on , 12 Feb. 1997

[Abstract] [PDF Full-Text (40 KB)] IEEE CNF

10 Ham quality control by means of fuzzy decision trees: a case study

Adorni, G.; Bianchi, D.; Cagnoni, S.;
Fuzzy Systems Proceedings, 1998. IEEE World Congress on Computational
Intelligence., The 1998 IEEE International Conference on , Volume: 2 , 4-9 May
1998

Pages:1583 - 1588 vol.2

[Abstract] [PDF Full-Text (572 KB)] IEEE CNF

11 Frequency and intensity texture analysis for beef quality evaluation and prediction from ultrasound images

Zhang, H.L.; Wilson, D.E.; Rouse, G.H.;
Engineering in Medicine and Biology Society, 1994. Engineering Advances: New
Opportunities for Biomedical Engineers. Proceedings of the 16th Annual
International Conference of the IEEE , 3-6 Nov. 1994

Pages:668 - 669 vol.1

[Abstract] [PDF Full-Text (176 KB)] IEEE CNF

12 Thermographic and Behavioral Studies of Rats in the Near Field of 918-MHz Radiations

Lin, J.C.; Guy, A.W.; Caldwell, L.R.;
Microwave Theory and Techniques, IEEE Transactions on , Volume: 25 , Issue:
10 , Oct 1977

Pages:833 - 836

[Abstract] [PDF Full-Text (592 KB)] IEEE JNL

1 [Feature subset selection for learning preferences: a case study](#)

Antonio Bahamonde, Gustavo F. Bayón, Jorge Díez, José Ramón Quevedo, Oscar Luaces, Juan José del Coz, Jaime Alonso, Félix Goyache
July 2004 **Twenty-first international conference on Machine learning**

Full text available: [pdf\(269.55 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#)

In this paper we tackle a real world problem, the search of a function to evaluate the merits of beef cattle as meat producers. The independent variables represent a set of live animals' measurements; while the outputs cannot be captured with a single number, since the available experts tend to assess each animal in a relative way, comparing animals with the other partners in the same batch. Therefore, this problem can not be solved by means of regression methods; our approach is to learn the pr ...

2 [A 2-level cactus model for the system of minimum and minimum+1 edge-cuts in a graph and its incremental maintenance](#)

Yefim Dinitz, Zeev Nutov

May 1995 **Proceedings of the twenty-seventh annual ACM symposium on Theory of computing**

Full text available: [pdf\(1.15 MB\)](#)

Additional Information: [full citation](#), [references](#), [index terms](#)

3 [Locally orientable graphs, cell structures, and a new algorithm for the incremental maintenance of connectivity carcasses](#)

Ye. Dinitz, A. Vainshtein

January 1995 **Proceedings of the sixth annual ACM-SIAM symposium on Discrete algorithms**

Full text available: [pdf\(1.14 MB\)](#)

Additional Information: [full citation](#), [references](#), [index terms](#)

4 [Session 3B: A fast algorithm for computing steiner edge connectivity](#)

Richard Cole, Ramesh Hariharan

June 2003 **Proceedings of the thirty-fifth annual ACM symposium on Theory of computing**

Full text available: [\[PDF\] pdf\(244.47 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Given an undirected graph or an Eulerian directed graph G and a subset S of its vertices, we show how to determine the edge connectivity C of the vertices in S in time $O(C^3 n \log n + m)$. This algorithm is based on an efficient construction of tree packings which generalizes Edmonds' Theorem. These packings also yield a characterization of all minimal Steiner cuts of size C from which an efficient data structure for maintaining edge connectivity ...

Keywords: Steiner points, cactus trees, edge-connectivity

5 [The connectivity carcass of a vertex subset in a graph and its incremental maintenance](#)

Yefim Dinitz, Alek Vainshtein

May 1994 **Proceedings of the twenty-sixth annual ACM symposium on Theory of computing**

Full text available: [\[PDF\] pdf\(1.10 MB\)](#)

Additional Information: [full citation](#), [references](#), [citations](#), [index terms](#)

6 [Charting the course of a user survey that will rock the boat](#)

Sue Stager

October 1988 **Proceedings of the 16th annual ACM SIGUCCS Conference on User Services**

Full text available: [\[PDF\] pdf\(794.47 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [index terms](#)

What shall we do with the user survey? What shall we do with the user survey? What shall we do with the user survey? Early in the morning? Thoughts of an upcoming annual user survey should produce neither shudders nor (worse yet) yawns from your computer center staff. Granted, most service organizations toss responsibility for the user survey around like a hot potato because the potential to "get burned" is real. But there are strategi ...

7 [Text Extraction and Summarization: Text classification in a hierarchical mixture model for small training sets](#)

Kristina Toutanova, Francine Chen, Kris Popat, Thomas Hofmann

October 2001 **Proceedings of the tenth international conference on Information and knowledge management**

Full text available: [\[PDF\] pdf\(1.40 MB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Documents are commonly categorized into hierarchies of topics, such as the ones maintained by Yahoo! and the Open Directory project, in order to facilitate browsing and other interactive forms of information retrieval. In addition, topic hierarchies can be utilized to overcome the sparseness problem in text categorization with a large number of categories, which is the main focus of this paper. This paper presents
